Personal Branding, Portrait and Headshot Photography.

Hello! I'm Susannah, a professional London photographer with over 20 years' experience working across a wide variety of sectors.

Despite the variety, all these businesses have ONE major thing in common – **the people** - without whom, the business wouldn't exist.

So, no matter what type of business you're in, having a professional and flattering portrait to front your social media, update your LinkedIn or elevate your marketing materials, is essential to be taken seriously in business and help people connect with you. In an age of fake, A.I and scams, showing yourself authentically is more valuable than ever before.

So, allow me to help you relax in front of the camera and let's get you some photos you'll be proud to show off.

Shooting Headshots for WorldFirst.

PLEASE BOOK your 20-minute SLOT for £95, which includes 3 fully edited digital high-res photos for your unlimited use.

We'll have time to take a few different headshots, on a simple plain background, one or two changes of clothing and a few fuller length shots, with one or two different backgrounds – using the spaces available to us.

Extra photos are £35 each, 4 for £120, 6 for £165 and 10 for £250.

You can also book an extra consecutive time slot for a more creative session, which includes 3 more photos, so this works out great value – perfect if you want to add some more creative personal branding style photos, such as an in-action working shot.

Please also book a consecutive time slot for each extra person you wish to shoot with. We will some individual portraits and some ones together – as you wish. Perfect for small business, people who work closely together and even just friends for support.

Please arrive at least 5 mins early to the waiting area, register with my assistant who will check your details and answer any questions.

There will be an area where you can place your extra clothes and accessories, check your face/hair and a few bits to help you if needed.

You can change outfits/hair style during your session to get a couple of different looks, please feel free to bring different clothing items, but be careful about creases and make sure you roll them first to avoid this. Quick and easy ways to do this are by wearing a jacket on, then off, changing just your shirt/top, wearing a different tie or having your hair up and then down. I can advise on styling if you need.

During and after the shoot you can view your images to make sure you're happy and select your favourites after the session to keep.
